

73 (p. 192)

The large bend of the Yellow River at the mouth of the Gyü-par valley, north of the Gyü-par (Jü-par) Range, as seen from a bluff elevation 10480 feet. The rocks on the opposite bank of the river are a deep grayish blue slate. The Gyü-par stream enters the Yellow River, extreme lower right & through a narrow rocky defile.

74 (p. 195)

Looking down a branch of the Gyu-par Valley and the main valley towards the Yellow River, northwest from an elevation of 11100 feet. The Yellow River flows at the foot of the eroded steep cliffs (center distance). The trees in foreground are *Picea asperata* Mast.
